## Shared Learnings

### Mobile Medical— Dental Unit

---

### Program Overview

Family Health Network utilized their awarded funds to renovate a large motor vehicle into a mobile medical/dental unit to reach patients whom otherwise would be unable to access care due to transportation or economic barriers. Rural and impoverished areas were stimulated with healthcare accessibility to high quality, affordable, integrated, and patient-centered healthcare.

**Target Population:** The rural and/or impoverished populations of Central New York that previously had transportation or economic barriers.

### Program Goals

To reach rural and/  
or impoverished  
patients

Deliver high  
quality, affordable,  
patient-centered  
healthcare

### Learnings

Perform patient outreach through a mobile unit to break accessibility barriers (transportation and economic barriers)
